

Conceptual Drawings – Stage 2: Cow Pasture

Development of a new home for the cows, taking them out of the farm's low point, a muddy mess during the rainy season.

Benefits include:

- Safer environment for students and animals
- Cows require roaming and grazing space
- Simplifies maintenance and feeding for farm staff and caretakers
- Provides healthier living benefits from exercise and feeding

Location options for cow pastures, 2 options.

Current view of the cow pasture today.
