OUR STORY

We are in the middle of our multiyear Master Plan for the development, modernization, and improvement of Loma Vista Farm. Phase 1, our Goat Barn Habitat, was started in 2018 and has been completed. In addition, we recently installed ADA compliant sidewalks though-out the Farm. We are starting Phase 2. Phase 2 encompasses all aspects of the Alpaca habitat which is much needed. Our goal is to have the major portion completed before the rainy season, providing our sweet alpacas with a dry, safe environment. Your help is needed.
