

Spider Web Site

Read: [Spectacular Spiders](#) by Linda Glaser or [Egg to Spider](#) by Anita Ganeri

This is a great opportunity for students to learn to appreciate spiders rather than fear them. Please remind them not to hurt the spiders or their webs. Take students for an exploration of the Farm to observe web sites. Good places to check are the inner and outer walls of buildings, fences, and garden.

Farm Curriculum available:

Spiders Web

Which Web is Which?

Web Finder

As a group, record observations of where and how many spiders were found. For example: Tool shed 3 webs, 2 spiders. Encourage students to ask questions about what they observe. Look for different kinds of webs and different stages of the spider life cycle. Can you identify any spiders?
